RUN 2256 HARE INLET

maxrundle@bigpond.com

Well, all the trouble makers are away! They have all gone off to ponce about at the Nash Hash. The Web Wanker's departing words are still ringing in my ears- "You can do the Newsletter, Bye!" So at present I am:  
Hash Flash  
Hash Scribe  
Hash Monk  
I was already suffering acute committee burn-out!

Due to the absence of a certain trouble making bus driver, Invermay women now felt safe to emerge from their homes without hearing "Ya Fuckin' Lesbian"

The new incoming **GM** had a golden opportunity to cement his position, by buying a round at the Inveresk On Home, with only 7 on the Run! - he declined - an ominous sign of things to come!

## INLETS' RUN REPORT

LH3 Run 21/02/17

Venue :: Thumbs Workshop  
Invermay Road.

Hare :: Inlet.

Weather:: Warm under a setting Sun.

Attendees: Inlet, Thumbs, Blakey, Abba, Goblet, Bendover, Delly, Rickshaw Derbs.

A small pack for the swamp run with Thumbs the Host and Inlet the Hare, as usual Inlet went off with all the bullshit about run length, checks all of which was misbelieved!! Thumbs stayed behind to look after the "Empire" as the run starts outside the gate on the left was the call. So Blakey took off, he had been told he was still the Lip and wanted to get back and on with business as tonight he

had another roll he was Hash Cash as well. Within 100m the run left Invermay Road with a "Late Comer's Loop" back onto the Main Road again with all the pack together. Of some concern was whether we would lose any Hashers to the Young Liberal Party who must have been having their own party prior to the Launceston Cup next Day. Abba was coaxed away as he was the Horn and we needed him at the front not the back which he resumed for most of the run!! Rickshaw was setting the pace and eager for a run as the pack passed Pellows Saw Service and crossed the road. Into the depths on Invermay another long block loop saw the boys end up back on Invermay Road again, were we to do these loops all the way. Within 20 metres the run actually went through a park and Blakey and Bendover were front runners (walkers!!), Inlet had joined the run and distracted Rickshaw both were in deep conversation. At this point Blakey was upset as front runner he had picked the wrong leg of the check but with little pace he soon caught up. The boys seemed to now be in two's as the run went behind the old BP North and through a very narrow laneway back onto another park with another short block loop we were on Forster Street and next to Invermay Park. It was evident we were headed for some softer ground leading into the Showground Precinct. Delly and Goblet were leading as the boys tried to work out all these loops finally Goblet worked it out and headed and called up the Flood Levy, Bendover and Blakey went up the Tram Line and Rickshaw saw an opening and broke into a sprint!! Along the flash boardwalk behind part of Utas, a check at the railyard saw the trail go

over Black Bridge only to be turned back with an FT. The tailenders breathed a sigh of relief and the pack resumed but where had Inlet gone ?? The pack went along the Boardwalk with a nice cool breeze from the river reaching Invermay Road and the Tamar Street Bridge, across the road saw a few Hashers head straight home, the pack continued on the levy adjacent to Lindsay Street to Holebrook Street where the run doubled back on the opposite side of the street to a narrow street behind the Inveresk Hotel now some things were making !!, a peer in the window from the ON Home sign saw Inlet and Rickshaw having a Coldie. The pack gathered again for the short trip past Aurora sorry Utas Stadium and the Venue of Thumbs car yard to greet a late Derbs. A run of 60 mins to the On Home with that short trip back and with lots of loops the run was all within about a 2K circle, no doubt next week we will be on the other side of Invermay on the River side of the Swamp!!
